

If you work for one of these organisations, please do let us know or speak to your HR department about how you can apply. It is often quite a simple process and we can help with any forms or letters needed. This scheme is not exclusive to the major corporate giants either. If you work for a small independent or local company they may be interested in charitable giving through match funding too.

Match Funding can potentially double the amount raised by one of our events so will make a HUGE difference!
